A Practical Chinese Grammar Mandarin
The grammar of Standard Chinese or Mandarin shares many features with other varieties of Chinese.The language almost entirely lacks inflection and so words typically have only one grammatical form. Categories such as number (singular or plural) and verb tense are frequently not expressed by any grammatical means, but there are several particles that serve to express verbal aspect and, to some ...

The manner in which large numbers are broken down in Chinese is a little different from English. Unlike in English, where large numbers are broken down by the number of thousands they have, Chinese forms numbers between 10,000 and 100,000,000 based off of how many tens of thousands they have (with another set of rules for numbers 100,000,000 onwards that will be explained later).
