The Pump Technique. Another technique of self-manual lymph drainage is the pump technique. During this technique, the hand is placed at an angle to the skin. The fingers then stretch the skin, with the thumb on one side of the limb, and the fingers on the other. The wrist then lowers to move the skin in a pumping motion. Deep Tissue Massage

MediaWiki provides many hooks like this to extend the functionality of the MediaWiki software. Assigning a function (known as an event handler) to a hook will cause that function to be called at the appropriate point in the main MediaWiki code, to perform whatever additional task(s) the developer thinks would be useful at that point. Each hook can have multiple handlers assigned to it, in which ...

Ethylene-propylene-diene monomer (EPDM) rubbers used in electric submersible pump (ESP) cables were analyzed after being aged in actual operation conditions in oil wellbores. These rubbers constitute the insulation and jacket layers of the ESP cables. EPDM rubbers from four different cables operating during different time intervals (2 and 4.8 years) at different depths (from 760 to 2170 m ...
