Learning to Think Like a Nurse, 2nd edition - Booktopia

The stretch reflex is designed as a protective mechanism, to prevent strain and tear injuries to the muscles and tendons. When the muscle spindle is excited an impulse is immediately received to contract the muscle, thereby protecting it from being pulled forcefully or stretched beyond a normal range of motion.

Understanding the Stretch Reflex (or Myotatic Reflex)

Parthenium hysterophorus is an annual herb that aggressively colonizes disturbed sites. It is considered as one of the '100 most invasive species in the world' by the IUCN (). Native to the New World, it has been accidentally introduced into several countries and has become a serious agricultural and rangeland weed in parts of Australia, Asia, Africa and the Pacific Islands.

Parthenium hysterophorus (parthenium weed)

Blood is a body fluid in humans and other animals that delivers necessary substances such as nutrients and oxygen to the cells and transports metabolic waste products away from those same cells. In vertebrates, it is composed of blood cells suspended in blood plasma. Plasma, which constitutes 55% of blood fluid, is mostly water (92% by volume), and contains proteins, glucose, mineral ions ...
