Space saving, fully modulating condensing pre-mix floor standing boiler with aluminium heat exchanger. Available in 6 modules with outputs (@50/30°C) of 98, 147, 197, 246, 295 and 348kW. Individual boiler modules can be stacked one, two or three hig...

Upton floor standing modular boiler - Hamworthy Heating

The boiler was not the usual Yarrow design. In operation, particularly its circulation paths, the boiler had more in common with other three-drum designs such as the Woolnough. It has also been described as an evolution of the Brotan-Deffner water-tube firebox, with the firebox extended to become the entire boiler.

Three-drum boiler - Wikipedia

for quieter operation Easily removable with just one screw Digital gauge featured on the boiler control display Manual gauge also included behind the front case Pressure can be monitored during installation and maintenance even when the power is off High quality pressure sensor and pressure monitoring logic ensures no disruption Installers ...
