Seeking Food Rights: Nation, Inequality and Repression in ...

Inequality in the access to food is a direct result of the distribution of populations, natural resources, and the productivity of their use but can be modified by human action—for example, through patterns of agricultural development, international trade, and dietary choices (Seekell et al. 2011).

Food Inequality, Injustice, and Rights | BioScience ...

Indeed, thirty percent of the women justified husband beating for reasons as trivial as burning the food, arguments, going out without telling, neglecting children or refusing sex. The 2011 Rights Side of Light study produced by the Human Rights Commission of the Maldives echoed similar attitudes among men towards women's rights.

Maldivian Women's Rights | United Nations

A study by the World Institute for Development Economics Research at United Nations University reports that the richest 1% of adults alone owned 40% of global assets in the year 2000. The three richest people in the world possess more financial assets than the lowest 48 nations combined. The combined wealth of the "10 million dollar millionaires" grew to nearly \$41 trillion in 2008.
